

3 Housing-related Loan System

< Japan Housing Finance Agency >

Japan Housing Finance Agency provides the “Flat 35” program, a housing loan with a fixed interest rate throughout the entire loan term, in cooperation with private financial institutions. In this program, the borrowing rate of interest and the amount to be repaid until the completion of repayment are fixed when you obtain a loan. This will help you make a long-term life plan.

One of the requirements for the program is that an applicant must have Japanese nationality, receive a permanent residence permit, or be a special permanent resident.

For more information, please contact the Japan Housing Finance Agency, provided below.
