

3 Safety and Security

(1) Regional Security (Crime Prevention / Traffic Safety)

If you encounter troubles, such as an incident or accident, please notify the police by calling the emergency number 110. For inquiries or consultation about crime prevention, please contact your nearest police station.

(2) Disaster Prevention

① Information on disaster prevention

The Hiroshima Prefecture Disaster Prevention Website provides information necessary to protect you from natural disasters, including rainfall data, river level observation results, weather news, evacuation information, and information on evacuation sites in the prefecture.

The disaster prevention education brochure, "*Minna de nakayoku manabousai!*" which outlines the types of disasters and disaster preparedness, is published in multiple languages on the website.

② Emergency notification

If you need to call a fire engine or ambulance due to a fire, a sudden illness, or an injury, please call the emergency number 119. You will be connected to a fire station. Fire stations also provide consultation on firefighting equipment and fire drills.
